

Priya Sharma

Mumbai, India | priya.sharma@email.com | +91 87654 32109 | linkedin.com/in/priyasharma | github.com/priyasharma

PROFESSIONAL SUMMARY

Data professional with 4 years of experience in analytics, machine learning, and business intelligence. Skilled in building predictive models, designing dashboards, and translating complex data into actionable business insights. Experienced with Python, SQL, and cloud-based data platforms. Seeking roles in data science or ML engineering.

TECHNICAL SKILLS

Languages: Python, R, SQL, Java

ML/AI: Scikit-learn, TensorFlow, Keras, Pandas, NumPy, NLTK, SpaCy

Visualization: Tableau, Power BI, Matplotlib, Seaborn, Plotly

Databases: PostgreSQL, MySQL, MongoDB, BigQuery

Cloud/Tools: AWS (S3, SageMaker, Redshift), GCP, Jupyter, Git, Airflow

Statistics: Hypothesis Testing, A/B Testing, Regression, Time Series Analysis

WORK EXPERIENCE

Data Analyst

Flipkart | Mumbai, India | March 2022 - Present

- Analyzed customer purchase patterns across 2M+ transactions to identify cross-selling opportunities, increasing average order value by 12%
- Built a churn prediction model using Random Forest and XGBoost achieving 89% accuracy, helping retention team target at-risk customers
- Designed and maintained 15+ Tableau dashboards tracking KPIs for marketing, sales, and operations teams
- Conducted A/B tests for checkout flow redesign, analyzing results that led to a 7% improvement in conversion rates
- Wrote complex SQL queries and built ETL pipelines using Python and Airflow to automate weekly reporting

Junior Data Analyst

Wipro Technologies | Pune, India | July 2020 - February 2022

- Cleaned and preprocessed large datasets (500K+ rows) using Pandas for client reporting in the banking domain
- Built customer segmentation models using K-Means clustering to support targeted marketing campaigns
- Created automated Python scripts for data validation, reducing manual QA time by 60%
- Presented data findings to stakeholders through weekly reports and monthly business review presentations

PROJECTS

Sentiment Analysis on Product Reviews

Built an NLP pipeline using NLTK and TF-IDF to classify 50,000 e-commerce product reviews as positive, negative, or neutral. Achieved 85% accuracy with a Logistic Regression model. Deployed as a Flask API.

Sales Forecasting Dashboard

Developed a time series forecasting model using ARIMA and Prophet to predict monthly sales for a retail client. Integrated predictions into an interactive Power BI dashboard with drill-down capabilities.

EDUCATION

Master of Science in Data Science

IIIT Hyderabad | 2018 - 2020 | CGPA: 8.7/10

CERTIFICATIONS

- AWS Certified Cloud Practitioner (2023)
- Google Professional Data Engineer Certificate (2022)
- Coursera Deep Learning Specialization - Andrew Ng (2021)
- Tableau Desktop Certified Associate (2021)
